RENTA URBAN LAND DESIGN
renta-uld.com / phone 205.545.7639

Tony Renta, PLA ASLA, is President of Renta Urban Land Design (RULD) located in Vestavia Hills where he continues his practice of Landscape Architecture in Birmingham for over 20 years. RULD is a Landscape Architecture and Urban Design firm with two primary focus areas, one being park and recreation projects consisting of large city-wide greenway master plans and park design and the other being historic downtown renovation plans and infill planning with an emphasis on inclusive use for all users.

RULD is typically involved from project conception, often before buildings or land are purchased in order to study the current land uses, forms, and local codes in order to help guide the clients and the designs toward a successful outcome. RULD's strengths lie in the understanding of the built environment and the focus on being good collaborators with allied professionals, be it architects, engineers, or the local municipality where the project is to be built.

RULD's design principals lie in the root of being creative thinkers that focus on problem solving with the primary goal of making the client's project a reality. RULD often states they are the client's translators and interpreters and their job is to listen well to the client's wants and needs and translate their vision into physical form, starting with drawings and leading to physical entities in the built environment, be it a new park, a new shopping center, or a new library.

Previously a principal in a multidisciplinary firm, Tony had a hand in the master planning and design some of Birmingham's most iconic spaces, including Railroad Park, Red Mountain Park, and the redevelopment of Sloss Furnaces. Tony's more recent civic works include Red Mountain Theater (Birmingham, AL) and the Lowe Mill District Redevelopment Plan (Huntsville, AL).

Mr. Renta's experience includes:

Wills Creek Greenway, Fort Payne, AL (ASLA Award Winner)
Centerville Greenway, Bibb County, AL
Altadena Valley Park, Vestavia Hills, AL
Art Park, Cullman, AL
Stewart-Perry Corporate Office, Birmingham, AL (LEED Silver / ASLA Award Winner)
